Demystified: Five ETFs You May Not Know

The exchange traded fund (ETF) world is large, vast and still growing. As new launches appear, it becomes increasingly challenging to become educated on all of them. Here are five funds that are different from the rest and may be worth a look.

....

2. PowerShares Global Progressive Transport (PTRP: 24.96 -0.38 -1.50%): up 69.9% in the last year. PTRP seeks to reflect the Wilder NASDAQ OMX Global Energy Efficient Transport Index. This ETF focuses on companies that promote the advancement of efficient transportation. More countries are becoming environmentally conscious and many have already set aside billions in infrastructure projects.

This is a first-of-its kind ETF, focusing on a sector that could have some legs as the global climate change debate (ahem)...heats up.

- Top countries include: United States 28.5%, Canada 11.04%, United Kingdom 8.03%, Taiwan 7.9%.
-
- Sector allocations: consumer discretionary 19.4%, energy 6.7%, industrials 59.5%, information technology 5.9%, Materials 8.6%.
